

About C G Fry & Son

Based in Dorset, C G Fry & Son are a leading regional housebuilder that delivers new homes and places with a focus on high quality design and construction. We are committed to delivering high quality development that responds to local character, supports communities and creates attractive, sustainable places to live.

Indicative proposal showing potential built development area and draft landscaping / drainage features

Illustrative view of how dwellings could front Beanis Path and Beanis Cottages (excluding Old Police House)

Draft Proposals

We are keen to engage with the community on our draft proposals for up to 60 market and affordable homes together with public open space on the above site. These will be presented at a public exhibition on 28th September, details of which are overleaf.

Next Steps

We will aim to address feedback received as far as possible through our planning application, which will be submitted to Wiltshire Council.

We look forward to meeting you and hearing your views.

DEVELOPMENT

Have your say

Land at Chitterne Road, Codford

We are inviting you to our community consultation on draft proposals for up to 60 market and affordable homes together with public open space.

Date and time

Monday 28th September 2026
4pm-7.30pm

Venue

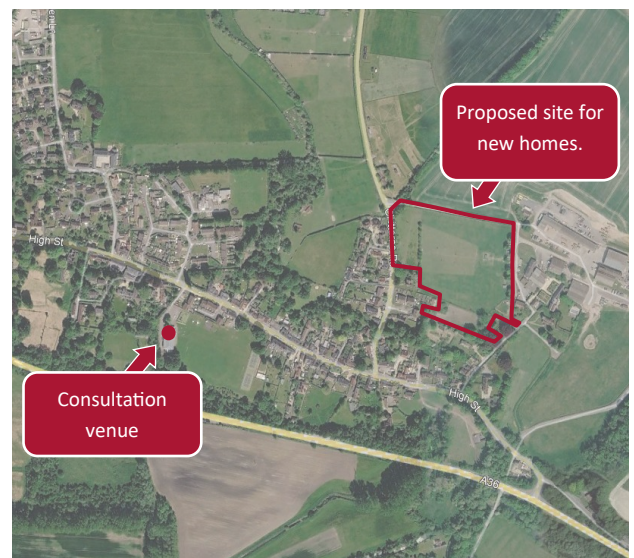

Codford Village Hall, Broadleaze, Codford St Peter, Wiltshire, BA12 0PP

Representatives of our team will be on hand at the drop-in exhibition to answer any questions on the draft proposals.

You will also have the opportunity to leave comments about our draft proposals on a feedback form at the event or afterwards. The comments received will help inform the final planning application.

Location

The plan shows the location of the proposed site relative to Codford and the consultation venue.

Can't attend? Following the event you will be able to view the proposals and submit comments online at <https://cgfry-codford.clplanning.co.uk/> or by scanning the QR code. Comments can also be submitted via the website until **12th October 2026**.
